|---|-------------------|-------------------|-----------------------------|---------------------------|
| 15,5Jx | 54mm | 35mm | 9,50" | 6,00" |
| <p>Das V3 Mittenteil hat 19mm mehr Flanschhöhe als das V2 Mittenteil. Und passt damit auf die hohe Fettkampe vom Mercedes und auf deutlich größere Bremsen als das V2 Mittenteil. Das V2 Mittenteil erlaubt ein breiteres Felgenbett bei gleichbleibender ET.</p> | | | | |
| <p>V3 comes with 3/4" extra flange height than the V2 center. It clears the high Mercedes stub axle cap and fits larger calipers than the V2 centers. V2 Centers allow more dish without lowering the offset.</p> | | | | |
